Subject: Contract Change Proposal #4, Proposal for Additional
Camera Model HR-732

Reference: (a) Contract BC-200

(b) Telecon 17 January 1957, RHP, TLB to GK, JMcD

(c) Telecon 29 January 1957, TLB to GK

Dear Sir:

We herewith submit our proposal as requested by you in reference (b) for one (1) Camera Model HR-732 which will be incorporated into one of the two (2) A-2 Configurations being assembled.

This unit will be fabricated from one (1) K-38 Camera Body and one (1) 24" Lens Cone presently on hand as CFE. This confirms our proposed price in reference (c) of \$3,800.

The Lens HL-732, Shutter HS-731 and Magazine HM-732 for this unit will be supplied from existing spares.

Delivery will be made by 30 April 1957.

We have reviewed the FAK spares presently available in the program supply system and we feel that no additional spares for this additional unit are required at this time.

In accordance with your verbal authority of reference (c) telecon for us to proceed we have initiated manufacture of this unit. It is understood that reference (a) contract will be amended to include this unit as a new contract item.

We trust that this proposal meets with your approval.

Very truly yours,

HYCON MFG. COMPANY
